

The Automation and Robotics Event Stage

The Automation and Robotics Event - Day 1

Times	Name	Topic
9.55-10.00	Jillian Godsil, Founder - Blockleaders.io	Opening Remarks
10.00-10.30	Declan McDevitt, Digital Solutions Manager, Siemens	Case Study : Implementing Artificial Intelligence in a manufacturing environment
10.30-11.00	Grant Coffin, Technology Consultant Team Leader, Architecture & Software, Rockwell Automation	A Practical Guide to Digital Transformation
11.00-11.30	Coffee Break & Networking	
11.30-12.15	Panel Discussion : Moderator - Jacinta Linehan, Global Head of ERP, Anord Mardix , Panellist : Grant Coffin, Technology Consultant Team Leader, Architecture & Software, Rockwell Automation, Declan McDevitt, Digital Solutions Manager, Siemens, Kate Carpenter, Divisional Director - Jacobs Engineering, John Walshe, Business Development, Ward Automation	The Evolution of Robotics and Automation - Past, Present & Future
12.20-12.50	Henrik Von Scheel, Author, Originator of the Industry 4.0	Smart Automation - the engine at the core of the next-generation operating model
12.50-14.00	Lunch Break & Networking	
14.00-14.30	Thomas McGrath, CEO, Cognition	How to create live Operational Intelligence from ordinary businesses - without the pain
14.30-15.00	Kate Carpenter, Divisional Director - Jacobs Engineering	The infrastructure implications of a mixed vehicle fleet
15.00-15.30	John Walshe, Business Development, Ward Automation	Automation and Robotics for the Medical Device and Pharmaceutical industries.
15.30-16.00	Victor Splittgerber, CEO, WAKU Robotics	Mobile Robots in the Supply Chain made easy
16.00-16.05	Jillian Godsil, Founder - Blockleaders.io	Closing Remarks

The Automation and Robotics Event - Day 2

Times	Name	Topic
10.00-10.20	Ritesh Mittal, Head of Automation Advisory, IBM	AI and Robotics - Future of Work
10.20-10.40	Volker Klaassen, Area sales manager, STERILINE	Robots are opening their path in aseptic filling.
10.30-11.00	Brian Cooney, General Manager, Kuka Robotics	The Future of Robotics in Manufacturing
11.00-11.30	Coffee Break & Networking	
11.30-11.50	Joan Cahill, Principal Investigator, School of Psychology, Trinity College Dublin	New work models and systems supporting healthy, safe and intelligent work
11.50-12.10	Declan Kavanagh, Managing Director, ODTI	Robotics & Automation to fear or embrace
12.10-12.30	Guglielmo Lozzia, Associate Director - Business Tech Analysis, IT and Analytics MSD	Explainable AI as part of the Machine Learning/Deep Learning DevOps strategy in manufacturing.
12.30-12.50	Harsh Gupta, Engineer, Ericsson	Deep Technology & Internet of Senses
12.50-13.10	Kevin O'Flynn, Director Of Business Development, Ireland AltViz	How Intelligent Automation can improve profit margins, reduce waste and improve customer satisfaction
13.10-13.30	Jacinta Linehan, Global Head of ERP, Anord Mardix	The 4th Era of ERP
13.30-13.50	Frank Deasy, Chief Solutions Officer, Eiratech Robotics Ltd	Case Review: A robotics solution's contribution on a digital transformation journey.
13.50-14.10	Brian McElligott, Partner, Mason Hayes & Curran	The Regulation of AI and Automation

The Automation & Robotics Event

All presentations/timetables are subject to change. Please check with onsite event timetable on the day.
